

DATE: March 25, 2019 **REPORT NO:** RFD-T-07-19

SUBJECT: 2019 Operating and Capital Budget

CONTACT: Donna DeFilippis, Treasurer/Director of Finance

OVERVIEW:

- Council is presented with a Draft 2019 Operating and Capital Budget which
 results in a general tax levy of \$6,937,670, which represents a 5.77 % tax levy
 increase after factoring in assessment growth and would result in an
 approximate of \$67.05 (5.63%) increase to the Township portion of taxes to
 an average homeowner.
- The recommended levy of \$6,937,670 **includes** seven service level change requests totaling \$136,100 in 2019
- The Draft 2019 Operating and Capital Budget includes the third and final allocation towards the West Lincoln Community Centre (formerly referred to as MURS) project of \$307,052.
- Every \$64,000 of additional expenditure added to this Draft Budget equates to a 1% general tax levy adjustment which represents an approximate \$12.00 increase in taxes to the average homeowner
- Capital and Special Project requests for 2019 total \$7,133,400

RECOMMENDATION:

- 1. That, Report RFD-T-07-19, regarding the "2019 Operating and Capital Budget", dated March 25th, 2019 be received; and,
- 2. That, a tax levy of \$6,937,670, which represents a 5.77% tax levy increase after factoring in assessment growth, be approved; and,
- 6. That, the Detailed 2019 Capital Program, attached as Schedule B to this report, totaling \$7,133,400 be approved; and,
- 7. That, water and wastewater user fees increase by 5% effective July 1, 2019; and,
- 8. That, a By-Law be passed which amends By-Law 2004-42, Schedules A and C to incorporate the revised water and wastewater fees effective July 1, 2019; and

- 9. That, the balance of Capital projects for the years 2020 to 2028 as outlined on Schedule D to this report be approved in principle; and,
- 10. That, tangible capital asset amortization expense estimated at \$2,433,523 and post-employment expenses reversal estimated at \$14,600 be and are hereby excluded from the 2018 Draft Operating and Capital Budget as permitted through regulation 248/09.

ATTACHMENTS:

• Schedule A 2019 Budget Summary

Schedule B 2019 Capital and Special Projects

• Schedule C 2019 Service Level Change Requests

• Schedule D Summary of Ten-Year Capital Plans

• Schedule E Summary of Reserve Transfers

• Schedule F Estimated Reserve Balances as of December 31, 2019

• Schedule G West Lincoln Community Centre Budget Impact

• Schedule H West Lincoln Community Centre Proposed Schedule

BACKGROUND:

On March 4, 2019 Council was presented with a draft 2019 Operating and Capital Budget. At that meeting, a 2019 tax levy of \$6,875,170 was presented, along with eight service level change requests which would have brought the levy to \$7,010,670. A Budget Open House was held on Thursday, March 7th at 7:00pm in the Council Chambers. At the Open House, a presentation outlining the 2019 Draft Operating and Capital Budgets was made. The five members of the public who attended the Open House were able to gather further information regarding Township finances and have their questions answered. After those two meeting, staff considered the comments and feedback from both Council and the public and made further adjustments to the 2019 budget.

It is important for Council to realize that every \$64,145 increase or decrease in the tax funded budget equates to a 1% general tax levy adjustment. The increase in the amount needed from the tax base does not directly relate to an increase in taxes on a residential home, but rather it is the increase in the overall tax levy required year over year. Every \$10,000 of expenditure added to this budget will result in approximately a \$1.81 increase in taxes. This information should assist Council in understanding the estimated effects of the draft budget as presented and alternatively how adjustments to the amount needed from the tax base impacts the average residence.

An important factor in determining the impact of the tax levy to homeowners is to determine the average residential assessment. In 2018, the average residential assessment was \$345,042, whereas in 2019 it is \$363,877. The 2019 figure will be used in any analysis into the impacts of the budget to homeowners. This average assessment is for a single detached residential property. Departmental staff, as well as the CEO of the

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

Library, will be available to respond to questions regarding their budget requirements.

2019 Levy Request:

Council is presented with a proposed 2019 tax levy of \$6,937,670 which represents an 8.16% increase over the 2018 levy of \$6,414,500. The Township has experienced assessment growth of 2.39% means that the first \$153,000 of any levy increase will have no impact on the average property owner. After factoring in assessment growth, the tax levy increase is 5.77%. The required levy of \$6,937,670 **includes** seven service level change requests as outlined in Chart 1:

Chart 1: Impact of Growth on the Tax Levy

| | 2019 | 2018 | \$ C | hange | % Change |
|---|-----------------|-----------------|-------|--------|----------|
| | | | | | |
| General Levy Requirement | \$ 6,937,670 | \$ 6,414,500 | \$ 52 | 23,170 | 8.16% |
| | | | | | |
| Less: Assessment Growth | \$ 153,000 | \$ - | \$ 1 | 53,000 | |
| | | | | | |
| Net Levy Requirement | \$ 6,784,670 | \$ 6,414,500 | \$ 3 | 70,170 | 5.77% |
| | | | | | |
| Township Taxes for Average Residential Property | \$ 1,258 | \$ 1,191 | \$ | 67.00 | 5.63% |
| | | | | | |
| Average Assessment for a Single Detached Residential Property | \$ 363,877 | \$ 345,042 | | | |

The above chart indicates that the local portion of taxes will increase approximately by 5.63%. This means that for every \$100,000 of assessment the average increase to the West Lincoln portion of taxes would be \$18.43.

At the March 4, 2019 Special Council meeting a levy of \$6,875,170, **without** any service level changes included was presented to Council. After that meeting staff continued to review the budget documents in order to find further reductions. Staff were able to lower the levy requirement by \$132,000 as follows:

- 1. Prior year surplus increased to \$200,000 from \$100,000. The original \$100,000 represented the 2017 surplus brought into 2019 income. The additional \$100,000 represents a portion of the anticipated 2018 surplus being brought into income. Staff is estimating a 2018 surplus of approximately \$400,000. Once the audit of the 2018 financial statements are completed and the financial statements are approved staff will bring a report outlining the items contributing to the 2018 surplus and a recommended course of action.
- 2. An additional expenditure of \$12,000 towards the contracting out of snow removal at the West Lincoln Community Centre has been removed from the budget. The removal of snow from the facility will continue to be completed by Township staff.
- 3. Reduction of \$20,000 under Urban Storm through the removal of Storm Sewer assessments.

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

The following two items have occurred after the March 4, 2019 Special Council meeting which have the impact of increasing the levy by a total of \$58,400.

- An increase to Council remuneration of \$19,500 as approved at the March 18, 2019 Administration meeting.
- A decrease in the OMPF (Ontario Municipal Partnership Fund) grant of \$38,900.

The levy, after the above adjustments, and before the addition of any service level change requests is \$6,801,570, an overall reduction of \$73,600 from the amount presented at the March 4, 2019 meeting.

We have **included** in the recommended tax levy request of \$6,937,670 an amount of \$136,100 for seven recommended service level change requests.

Urban Service Area (USA) Charge:

The overall 2019 Urban Service Area levy is \$199,200 (\$180,900 in 2018). The Streetlight levy has decreased to \$90,300 in 2019 from \$\$92,800 in 2018. The Sidewalk levy has increased to \$108,900 in 2019 from \$88,100 in 2018. The Streetlight decrease is attributable to lower hydro costs which result from the conversion to LED street lighting in 2016. The LED streetlight conversion was funded by a transfer from the Contingency reserve that was to be paid back through the savings in hydro costs. The initial project was estimated to have a six-year payback period. The actual payback period is only four years, with 2019 being the final year for a transfer back to the Contingency Reserve.

The sidewalk levy increase is attributable to the following main factors:

- Program support allocation increase of \$3,000 to reflect the support provided from other departments and includes a higher allocation for insurance
- Increase to the sidewalk reserve of \$2,800
- Increase to Repair and Maintenance of sidewalks of \$2,000
- Increase of \$9,300 for salary and wages of staff representing direct cost of sidewalk maintenance (new cost not reflected in prior years, in past only staff time related to snow clearing was captured)

In 2018, the average home in the urban area paid \$79.61 for streetlight and sidewalk services. The 2019 Budget is indicating that the amount paid for streetlight and sidewalk services for an average homeowner will be \$85.11 annually (a \$5.50 increase). Any changes to the urban sidewalk or urban streetlight budgets will alter the amount above.

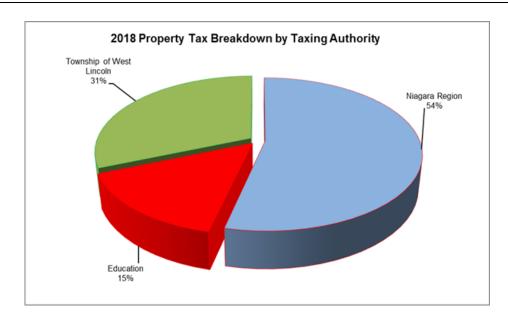

Municipal Tax Bill:

The municipal tax bill has three portions which need to be explained. The municipality collects taxes for itself, the Niagara Region, and the School Boards. The Township has no

"The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

control over the Region or School Board rates. We bill, collect and then remit their portions to them. In 2018, the portion of the total tax billing related to the Township's budget was approximately 31%, the Regional portion was 54% and Education was 15%. This distribution has not varied significantly over past years. The chart below highlights the allocation of taxes.

Chart 2: Allocation of Taxes

At the time of preparation of this report, the 2019 Niagara Region tax rates have not been determined, however, the Region has approved a 3.8% tax increase. However, it is likely that the increase in Regional taxes to the average homeowner in West Lincoln will be higher than 3.8% given the fact that West Lincoln's assessment growth relative to the other Niagara Municipalities assessment growth has increased in 2019. This results in West Lincoln paying a proportionately higher amount of Regional Taxes than it did in 2018. For the purpose of this report, it is being assumed that Niagara Region taxes will actually increase 5% in West Lincoln. It is estimated that the average homeowner would see an increase in the Niagara Region portion of their taxes of approximately \$106. The education rates for 2019 have not been released from the Province.

The following chart is an estimate of what the total tax bill may look for an average residential property owner in West Lincoln. Chart 3 includes the Urban Service Area charge. Niagara Region taxes are estimated to increase by 5% and Education taxes are estimated to increase by 2%. The total tax bill is estimated to increase by 4.78%.

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

Chart 3: Estimate of Total Tax Bill

| | 2019 | 9 Total Taxes | 201 | 8 Total Taxes | \$ | Change | % Change |

Service Level Changes:

Chart 4 below highlights six service level changes to be discussed as part of the 2019 Budget deliberations. **Schedule C** to this report provides the detailed justification sheets related to each request. **The requested tax levy of \$6,937,670 includes seven service level change requests**. However, detailed support sheets on Schedule A do not include these additional expenditures.

The total levy, **prior** to any service level change requests is \$6,801,570 which represents an approximate \$42.38 increase to taxes (3.56%). These service level requests are being presented to Council as necessary expenditures in order to meet current demands or to increase the current service levels being provided. If Council chose not to include one of the following seven requests the required tax levy would be reduced. **Again, the requested tax levy of \$6,937,670 includes the 2019 impact of \$136,100 resulting from these service level requests.** The impact to the 2020 budget is estimated at \$78,800.

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

Chart 4: 2019 Service Level Change Requests

| 2019 Draft Operating and Capital Budget - Service Level Change Requests | | | | | | | | | |

West Lincoln Community Centre:

The construction and financing of the new West Lincoln Community Centre, formally referred to as (MURS), was approved by Council at the April 18, 2017 Public Works meeting through report RFD-PW-16-17. The financing of this project is through a combination of debt, donations, development charges, reserves and the Wind Turbine Community Fund. The debt is being paid off through the collection of development charges, user fees, the tax levy and the use of the Wind Turbine Community Fund annual contribution. Over the course of three years; 2017, 2018 and 2019, the tax levy has increased by \$283,500, \$297,948 and \$307,500 respectively, for a total of \$888,500.

The financing plan included funding for some increased operating costs. However, a detailed operating plan is just now being developed and will evolve over the course of the year. Schedule G to this report outlines the financing that is included in the 2019 budget as well as the operating costs. Schedule H to this report provides Council with a draft schedule of the facility that indicates the additional services as well as the hours of operation proposed for 2019.

At the March 4^{th,} Special Council meeting staff were asked to consider opportunities of having volunteers participate in the operation of the facility. Since then, this has been discussed amongst the senior management team. The biggest issue and most notably of concern is the fact that our Township staff are unionized under CUPE Local 1287, since 1971, and this local covers Public Works, Recreation & Arena and Office &

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

Clerical Employees.

Staff will, however, commit to look for every appropriate opportunity to implement volunteers. For each volunteer scenario there are a number of coordination, training, liability, safety and insurance matters that would need to be reviewed and considered and this takes time.

Water and Wastewater (Sanitary Sewer):

For 2019, the water and wastewater budgets have an estimated expenditure of approximately \$1.6 million and \$1.9 million respectively. This entire operating budget totalling \$3.5 million is funded 100% through user fees, collected from approximately 2,400 customers. Of the \$3.5 million combined budget, approximately \$1.9 million represents payments to the Niagara Region for the supply and treatment of water and wastewater. The fixed costs from the Niagara Region have increased 8% over 2018 and the consumptive rate has increased 2.5% over 2018. The fixed costs charged to the Township total \$1.3 million.

The fees collected support both the operating costs and ensure that funds are transferred into reserves to ensure adequate funding for future capital works. The 2019 budget includes a draw of \$831,500 from these reserves in order to complete required projects. The total transfer to these reserves through the user fees collected is estimated to be \$503,380, which represents a \$95,280 (23%) increase over 2018.

The 2019 budget is proposing a 5% increase to water and wastewater rates as outlined and approved by Council in the 2016 Water and Wastewater Rate Study and Financial Plan. The rate change would be effective July 1, 2019 and would impact the September 2019 and December 2019 billings. The water consumptive rate would increase to \$1.34 from \$1.28 and the fixed quarterly rate for a ¾ service would increase to \$37.60 from \$35.81. Bulk water would see it's per cubic meter rate increase to \$1.81 from \$1.72. The wastewater consumptive rate would increase to \$1.73 from \$1.65 and the fixed quarterly rate for a ¾ service would increase to \$86.68 from \$82.55. To put the consumptive rates in perspective, a 500ml bottle of water is often purchased for \$1.00, based on the new proposed consumptive rates, that same 500ml bottle of water could be filled up from the tap 651 times for the same price. The impact to an average quarterly water bill is outlined below:

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

Chart 5: Impact of water/wastewater rate increase

OPERATING BUDGET ANALYSIS:

The following section highlights some specific items and departmental operations. The overall 2019 Operating Budget is comprised of expenditures totalling \$15,003,350 prior to any service level changes requests. The analysis below will be commenting on that amount before any service level change requests. The service level change requests are outlined in detail on Schedule C and when added result in a total expenditure of \$15,139,450.

OMPF Funding:

The Township recently received an announcement that the 2019 allocation from the Ontario Municipal Partnership Fund (OMPF) would be \$915,900, which represents a decrease of \$38,900 from the 2018 allocation of \$954,800. The Township receives funding from the OMPF through two allocations: Rural Communities Grant and Northern and Rural Fiscal Circumstances Grant. Both allocations were reduced in 2019. Staff will be reviewing the calculations in depth once budget is approved and will provide Council with details at a future meeting as to how and why the calculations changed.

The Rural Communities Grant recognizes the unique challenges of municipalities with rural farming communities. This funding helps to offset the loss in property taxes due to the legislation that requires farmland to be taxed at 25% of the residential rate. If the Township did not have this funding, the levy would have to increase by approximately 14%.

Municipal staff have been alerted by the Ministry of Finance that this funding source will be reviewed in depth over the course of 2019. It is quite likely that this funding may decrease further in 2020. The Ministry of Finance has indicated that they will make any announcements early enough so that municipalities can plan for 2020 appropriately. Council will be updated as further information is received.

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

Labour Costs/Benefits (Compensation):

Salary and Benefit costs comprise approximately 39.5% of the total Township Operating Budget. Total Salary and Benefit Costs in 2019 total \$5,936,820 compared to a total of \$5,618,880 in 2018 (\$317,940 increase). This represents a 5.66% increase over 2018. Factors contributing to this increase are as follows:

- \$54,600 increase related to the hiring of two new truck drivers in 2018
- \$73,200 increase related to hiring of an Engineering Technologist (funded through Road Settlement Reserve)
- \$15,000 increase for part-time staff at arena
- \$12,000 increase for cleaning staff at Smithville Library Branch
- \$26,500 increase to council members remuneration as a result of Township benefit costs increasing due to the elimination of the 1/3 tax free allowance and an adjustment to Council Remuneration to adjust for the impact to their net pay
- \$16,000 related to Planning position changing from contract to full-time
- \$8,100 reduction in crossing guard staffing budget
- \$128,740 increase to account for the overall increase budgeted for salaries and benefits which represents a 2.5% increase over the 2018 salary and benefits budget. Benefit costs include WSIB, CPP, EI, EHT, OMERS and Group Benefits.

Insurance:

Corporate Insurance is allocated among various departments and has an overall budget of \$210,000 compared to \$192,600 in 2018, which equates to an increase of \$17,400. A portion of that increase is an anticipated 6% increase in premium costs (\$11,600) and an additional \$5,800 related to higher insured values resulting from the New West Lincoln Community Centre. Insurance costs are charged to various departments based on asset values and inherent risk.

Utilities:

Utilities are comprised of heat, hydro, telephone and water. The overall 2019 budget is \$425, 530, which represents a \$40,680 (10.57%) increase over 2018. This increase is related to the increased costs related to running the new recreation centre. Staff has factored in increased utility costs for all facilities, however, this increase is applied to 2018 actual results, not budgeted figures. Given that actual 2018 costs are less than budgeted for, the increase to rates did not impact the budgeted figures.

This section will focus on departmental variances. Departments with larger dollar value variances are being discussed.

Mayor's Office and Councillors:

- 2019 budget of \$251,000 versus 2018 budget of \$204,900, \$46,100 (22%) increase
- driven by increases in compensation and benefit costs related to the loss of the one-third tax free allowance and the increased participation in the Group Benefit Plan by Members of Council

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

Corporate Management:

- 2019 budget of \$1,554,000 versus 2018 budget of \$1,629,800, \$75,800(4.65%) decrease
- Overall increase in salary and wages of \$30,200 (approximately 2.24%)
- Increased allocation of program support to fee-based departments (increase of \$56,800)
- The bulk of the increase in allocation went to the Building Department (\$46,500) to reflect more accurately the support and share of building operating costs by that department
- A reduction of \$51,500 in special projects funded from the Operating Fund
- \$52,500 under debenture principal represents the annual obligation to the YMCA, the final payment to be made in 2022. This payment is offset by a transfer from the Working Fund Reserve. Payments commenced in 2015 and will total \$262,500 over the eight years.

Fire:

- 2019 budget of \$1,175,000 versus 2019 budget of \$1,138,500, \$36,500(3.21%) increase
- Contribution to fire reserve has increased by 7% over 2018, \$21,000 increase
- Overall salary and benefit increase of \$12,000 (2.69%) increase

Building Department:

- 2019 budget of \$536,180 versus 2018 budget of \$456,800, \$79,380(17.38%) increase
- This department is fully funded through user fees
- As stated above, an additional transfer of \$46,500 is being made from Corporate Services to the Building department
- Total allocation has increased to \$147,400 from \$100,900 to greater reflect the support of both staffing and services (building costs) to this department
- Wages and benefits increasing \$13,000 (4.76%) which is mainly attributable to participation in family versus single group benefits

Transportation Services:

- 2019 budget of \$3,211,350 versus \$3,008,300 in 2018, \$203,050 (6.75%) increase
- This is a large department that encompasses all operating costs related to roads, bridges, road side operations, sidewalks, streetlights, winter control and streetlights.
- Staffing within the public works department is allocated among these various cost centres
- Compensation overall has increased by \$200,100 (15.5%) over 2018, driven by the following: \$54,600 costs related to addition of two truck drivers in 2018, \$73,200 related to hiring of engineering technologist funded through a reserve transfer; \$29,100 of additional budget allocated to over-time costs, with balance related to statutory increases in wages/benefits

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

- Supplies and Equipment increase of \$36,700 is mainly attributable to an increase in fuel costs
- Contracted services increase of \$60,900 is driven largely from an addition of \$30,000 for railway crossing work and work on a crosswalk on Highway 20.
 Additional costs are a result of inflationary adjustments to anticipated contract costs.

Parks:

- 2019 budget of \$337,100 versus 2018 budget of \$369,200, a decrease of \$32,100 (8.69%)
- The main contributor to the decrease is a lower budgeted figure for wages and benefits (overall decrease of \$26,500). This decrease is a result of staff allocations between Parks and Recreation Facilities being modified from 2018. The same staff work in both departments. Prior to changing the general ledger account code structure, all staff were charged to what we had as a cost centre called Arena. 2018 was the first year that we budgeted Parks separate from Recreation Facilities. During the 2018 budget process, an estimate was made as to the allocation of time between these two departments. During 2018, staff coded their time for payroll purposes and from that data, more accurate allocations could be adopted in 2019. Thus, for 2019, a greater allocation of time is being attributed to Recreation Facilities, versus Parks.

Recreation Programming:

- 2019 Budget of \$278,620 versus a 2018 budget of \$241,400, an increase of \$37,220 (15%)
- A new event has been introduced in 2019, a Christmas Tree Lighting Celebration.
 Staff is estimating funding from the Niagara Region of approximately \$15,000, however, there is a Township cost of approximately \$5,100
- Movies in the Park is not receiving any funding in 2019, resulting in an additional cost to the Township of approximately \$12,400
- Senior's programming costs increasing by approximately \$12,600 as a result of funding no longer being available

Recreation Facilities:

- 2019 Budget of \$355,950 versus 2018 budget of \$288,700, increase of \$67,250 (23.29%)
- Salaries & Benefits increasing for a total of \$43,000 which is a combination of staff allocation changes as discussed under Parks, as well as an additional budgeted amount of \$15,000 to account for the additional part-time staff necessary to operate the new arena and walking track during the winter season
- Utility budget increasing by approximately \$34,200 as a result of increased operating costs related to the new West Lincoln Community Centre
- Repair and Maintenance costs increasing approximately \$9,600 as a result of the new West Lincoln Community Centre

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

 These additional costs have been mitigated with increased User Fee revenue of \$25,000

Libraries:

- 2019 Budget of \$501,950 versus a 2018 budget of \$510,500, decrease of \$8,550 (1.67%)
- \$50,000 decrease to transfer to the Library Reserve. This has been decreased to align with the Capital projects in the Ten-Year Capital Plan
- \$12,000 increase in salaries and wages as a result of additional cleaning costs for the Smithville Library branch
- \$8,400 increase in repair and maintenance costs for the Smithville Library Branch
- \$11,000 increase in Smithville Library Branch Utility costs
- \$6,100 decrease in Provincial Grants
- \$3,000 increase Small Furniture & Fixtures for the Smithville Library Branch

Planning:

- 2019 Budget of \$171,700 versus 2018 budget of \$211,600, decrease of \$39,900 (19%)
- \$18,000 decrease in Planning revenues, attributable to decrease in subdivision administration fees
- \$24,800 of additional costs within wages and benefits related to a staff member changing from contract to full-time as well as group benefit changes from single to family for two employees
- \$9,400 increase to wages and benefits as a result of statutory increases
- \$96,500 in mitigation through a decrease in special projects and reserve transfers funded through the Operating Fund

Reserve and Reserve Funds:

Attached as **Schedule E** to this report is a summary of the various transfers into and out of reserves. The total contributions to the reserves are through the Operating Fund, and total \$1,756,080. Of this total, \$514, 380 is raised through user fees and the balance of is raised through the Operating Fund (taxes). The Operating Fund uses \$299, 380 of reserves. The bulk of this use of reserves is through the Building Department which is fee driven. The 2019 budget includes a transfer of \$166,180 from the building department reserve.

It is under Capital (including special projects) that a large draw is taken from reserves. In 2019, this totals \$4,379,000. In some cases, the reserves are managed in such a way that in certain years there will be large draws, followed by other years where the reserve is once again built up. The Election, Fire, Equipment, Water and Sewer reserves are good examples of reserves that operate in that manner.

Schedule F to this report is forecasting what the reserve balances should look like at the

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

end of 2019 based on the draft 2019 budget. When reviewing these projected balances in hand with the ten-year Capital plan there is concern that current balances in the Bridge and Capital Reserves will not be enough to fund the capital requirements. The annual contributions to these reserves, of \$130,000 and \$177,000, respectively would need to be increased substantially to meet the required investments.

Alternatively, the use of debt to finance projects should be considered as it is a means of addressing current needs with funding over a longer period of time. The "pay as you go" philosophy will not be able to provide sufficient funding to meet the total needs in the tenyear capital plan as presented to Council. The Ten-Year Capital Plan has been revised to indicate projects that would most likely have to be funded through debenture financing.

Report RFD-T-02-18, "2016 Asset Management Plan" presented to Council on January 28th, 2018 recommended a 3.6% increase to the asset replacement allocation which would mean an additional \$231,000 allocation to asset replacement in the 2019 budget. The 2019 budget does not include such an increase.

Capital and Special Projects Analysis:

Schedule B represent both Capital and Special Projects requested for 2019. **Schedule D** is the summarized ten-year Capital Plan. We categorize capital between Tangible Capital Assets (TCA) which the Township will capitalize and depreciate and Special Projects. Special Projects are often referred internally to as capital, however, they do not meet the definition of TCA and thus are listed separately.

Schedule B indicates a total expenditure of \$7,133,400(\$6,419,500 Tangible Capital Assets & \$713,900 Special Projects). Of that total, \$55,000 is being funded through the Operating Fund. Any changes to those projects funded through the Operating Fund will have a direct impact to the tax levy. Chart 6 below summarizes the 2019 proposed projects by Service Area. Most of the service areas are self—explanatory, for further clarification the following should be of assistance:

- Recreation Facilities include local halls
- Transportation Services General cover costs that are used by all Transportation Services, such as rolling stock (trucks)
- Transportation/Operations/Roadside Assistance covers items such as road signs, streetlights, pedestrian crossings, railway crossings and signals, traffic control, drainage, sidewalks, anything other than road surfaces and bridges

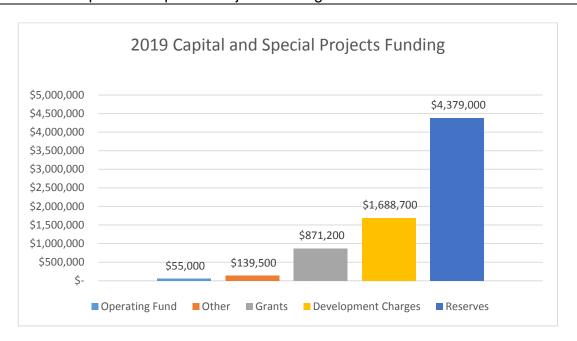

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

Chart 6: 2019 Capital by Service Area

Chart 7 presents the budgeted funding figures for 2019 Capital and Special Projects:

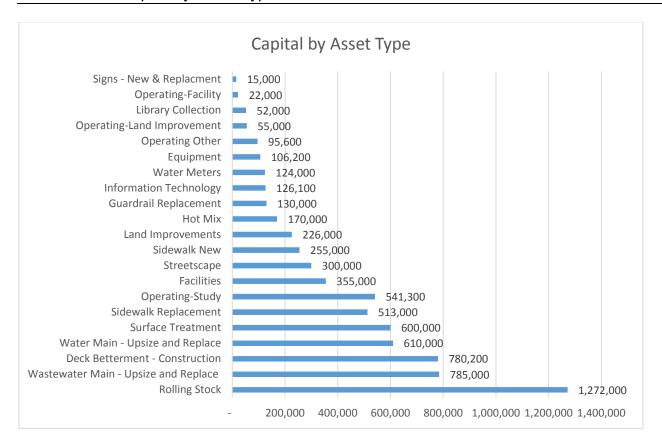

Chart 7: 2019 Capital and Special Project Funding

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

Chart 8 below breaks down the 2019 Capital by asset type.

Chart 8: 2019 Capital by Asset Type

Some key items to note are as follows:

- Fire: We have updated the budget figure for the Station 2 Fire Rescue Truck from the March 4th meeting to \$700,000 from \$568,000 based on preliminary RFP (Request for Proposal) results. The Ten-Year Capital Plan was slightly adjusted in order to ensure the Fire Reserve would have adequate balances to meet expenditure requirements.
- Surface Treatment: One of the projects, South Chippewa Rd is being partially
 financed through a transfer from the Road Settlement Agreement Reserve based
 on the fact that another section of the same road re-surfaced in 2018 was funded
 using the same reserve
- Traffic Operations Sidewalk and streetscaping work along Hwy 20 (West St) in Smithville totalling \$913,000 is being recommended in conjunction with the work the Region will be conducting during the Hwy 20 Road Improvements
- Deck Betterment-Construction: includes repairs to Bridge 16 on Patterson Road, as well as the replacement of Bridge 34 on North Chippewa Road

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

- Transportation Services- General- includes \$76,300 to conduct a Roads Needs
 Study to be used to measure Township road attributes with the resulting data being
 used in Asset Management. Both paved and unpaved roads will be reported on.
 This data will assist the Township in assessing priority projects based on attributes
 such as condition and risk analysis.
- Wastewater The expenditure of \$785,000 along West St and Wade Rd are also being recommended in conjunction with the Hwy 20 re-construction
- Water- The expenditure of \$610,000 for a new main along West St is also as a result of the Hwy 20 reconstruction
- **Building** the renovations to the former Smithville Library budgeted at \$300,000 will be funded by the Building reserve and will be used to renovate to provide space to the Building department.

Schedule D provides Council with both summarized and detailed Ten Year Capital Forecasts. As discussed earlier in the report, both the Bridge and Capital Reserves will not have sufficient balances to meet the forecasted projects based on the current level of reserve transfers. Projects will have to be delayed, or removed, or the issuance of debt financing will have to be utilized.

The Ten-Year Capital Plans have been updated to indicate projects that may have to be funded through debenture issuance. The integration of Asset Management with the budget process will be a key element to assist staff and Council in determining the best course of action in order to ensure our assets are able to provide the appropriate level of service.

ONTARIO REGULATION 284/09 REQUIRED REPORTING:

As a municipality, the Township is required to follow the accounting standards established by the Public Sector Accounting Board (PSAB). The PSAB standards do not require municipal budgets be prepared on a fully accrual basis. The Township of West Lincoln, like most Ontario Municipalities, continues to prepare budgets on a cash basis. A key outcome of the annual budget is a tax rate. The tax rate is based on annual cash requirements and therefore does not include the PSAB requirements around accrual accounting and accounting for "non-financial assets and liabilities"

Ontario Regulation 284/09 allows a municipality to exclude from its annual budget estimated expenses related to the following:

- i. Amortization expenses
- ii. Post-Employment Benefit Expenses
- iii. Solid waste landfill closure and post-closure expenses N/A to our Township

The regulation however does require that the municipality report on the impact of these excluded costs. In particular, reporting is required to estimate the impact on the

"The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

accumulated surplus and the impact on the future tangible capital asset funding requirements from resulting from the exclusion of any of the expenses listed above.

i. Amortization Expense:

Amortization expense represents the reduction in the economic benefits realized by the Township's Tangible Capital Assets during the fiscal period. Amortization expense should not be used to determine the impairment of an asset; however, it is a good tool to predict the future annual financial commitment required for asset rehabilitation or replacement. The 2019 Draft Operating and Capital Budget excludes \$2,433,523 of estimated amortization expense, which would reduce the Township's accumulated surplus. The 2019 Budget does include total transfers to reserves relating to Tangible Capital Assets of \$1,541,180. In 2019, \$4,080,400 is being transferred from Reserves to finance Capital expenditures. It should also be noted that the 2019 Budget includes \$6,419,500 in recommended Tangible Capital Asset Investments. These investments are treated as expenditures in the 2019 Budget; however, in accrual accounting they are Tangible Capital Additions and are not expensed, resulting in an increase to the accumulated surplus.

ii. Post-employment Benefits:

Post-employment benefits are non-pension benefits provided to employees that met specific criteria upon retirement. The 2019 Draft Operating Budget excludes an estimated \$14,600 of post-employment benefits expense reversal which has the impact of increasing the accumulated surplus. The 2019 Budget does include \$34,900 of the current year's post-employment benefit costs paid out to current eligible retired employees, offsetting the liability.

Impact on Accumulated Surplus:

The accumulated surplus shown in the Township's Financial Statements represents the net resources available to provide future services. It does not represent surplus cash. The Township's accumulated surplus as calculated using PSAB policies was \$83.5 million as of December 31, 2017. The closing balance as of December 31, 2018 is not yet available. Chart 9 below outlines the estimated impact of excluding the above two expenses:

[&]quot;The Township of West Lincoln will be a community that values our heritage, preserves our environmental and natural resources, fosters entrepreneurial spirit and provides excellent quality of life"

Chart 9: Impact of Excluding Amortization and Post-Employment Benefits on the Accumulated Surplus

| Net increase (decrease) to accumulated surplus | 1,426,457 |
|---|-----------|
| Total increase to accumulated surplus | 7,960,680 |
| · · · · · · · · · · · · · · · · · · · | 7.060.690 |
| Reserve contributions related to the aquistion of tangible capital assets | 1,541,180 |
| Investment in tangible capital assets | 6,419,500 |
| | |
| Total decrease to accumulated surplus | 6,534,223 |
| Post employment benefit net expense | 20,300 |
| Reserve financing for tangible capital assets | 4,080,400 |
| Tangible capital asset amortization | 2,433,523 |

INTER-DEPARTMENTAL COMMENTS:

Department Heads have all been involved in the creation of their own budget documents. Department Heads worked with their staff to send in initial budget plans which have undergone some change through meetings with the Treasurer and CAO to get to the final draft document as presented to Council.

CONCLUSION:

It is concluded that the 2019 Operating and Capital Budget report and recommendations be approved as presented.

CAPITAL NAME Website Refresh

CAPITAL TYPE Information Technology

DESCRIPTION

Website refresh is required in several key areas including accessibility, SEO (Search engine Optimization), organization of information and simplifying the interface. A new operating platform will be required. In 2018, \$18,000 was allocated towards this project. Upon further review it became evident that this project required additional budget funds in order to ensure successful completion. A total budget of \$35,000 is required, thus \$17,000 of additional funds are being requested in 2019.

CAPITAL NAME Corporate Strategic Plan

CAPITAL TYPE Operating-Study

DESCRIPTION

The last West Lincoln Community Strategic Plan was developed in 2012. Best Practices suggest that these plans should be updated every 3-5 years and ideally cover the term of Council. With a new Council in place, some major initiatives implemented and new senior staff in the administration, it is time to update the Strategic Plan. A Strategic Plan outlines the priorities and desired results of a municipal efforts over a specific period of time. The strategy is also directly linked to the budget for the municipality in that it provides direction to Administration regarding Council priorities. It also sets the framework for annual departmental business plans with linkages to performance evaluation systems. While a municipality may have multiple strategies (eg official plan, asset management plan etc), it is essential to develop one overarching strategy that is inclusive of all municipal activities and services that is used to guide the organization as a whole.

Strategic planning allows Council and Administration to work together collaboratively to achieve a vision for their municipality and remain focused on key goals with limited resources Without a strategic plan, a municipality runs the risk of going from "urgent" matter to "urgent" matter, or never looking beyond what is required to "keep the lights on" each day. For this reason, the plan needs to focus on the big picture or the future vision of the municipality to allow it to be a useful tool in addressing opportunities and challenges of the current situation. Ideally, this process and plan should be completed by the end of the 2nd quarter of 2019.

CAPITAL NAME

Bunker Gear

CAPITAL TYPE

Equipment

DESCRIPTION

Bunker gear wears out in approximately 5 years. The protection of the firefighter is reduced as the equipment ages to the point that at 5 years it is generally recognized that it needs to be replaced. We have 47 bunker suits. At 10 suits per year at a cost of \$1700.00 per suit, this will allow 10 set to be replaced annually.

CAPITAL NAME Edraulic Cutters

CAPITAL TYPE Equipment

DESCRIPTION

West Lincoln Fire applied to Trans Canada Pipelines for grant funding for 2 sets of extrication edraulic cutters in the amount of \$25,000. We have received a \$10,000 in grant funding towards the total amount of \$25,000. With the \$10,000 grant funding and \$7000 from development charges, we are requesting \$9000 from Fire Reserves to purchase the 2 sets of edraulic cutters. In the 10 year capital budget there is \$80,000 scheduled in 2021 for 2 full sets of cutters, spreaders and rams for both stations. This amount will be decreased \$26,000 by purchasing the 2 sets of edraulics cutters in 2019.

CAPITAL NAME New Pumper Rescue Station # 2

CAPITAL TYPE Rolling Stock

DESCRIPTION

Station # 2 pumper is 20 years old in 2018. The Ontario Fire Marshal's Office does not recognize any fire apparatus over 20 years. Station # 2 pumper was put in the 2016 capital budget, and has been put off for the last 2 years. In the 2017 Fire Master Plan the recommendation was for this pumper to be replaced in 2018. It is recommended that we keep pumper # 2 as a backup - in doing this, we can apply approximately \$153,000 of Development Charge money towards the total cost of the new Pumper.

Roads Needs Study

CAPITAL TYPE

Operating Study

DESCRIPTION

The Ten Year Capital Plan previously indicated that the Roads Needs Study would be completed in 2020. As a reminder, the Roads Needs Study is a comprehensive condition review and assessment of the Township's road network. The results of this study provide critical condition data that is a required for sound asset management planning and provides the current and future (shot / medium / long term) rehabilitation and financial needs with respect to the Township road network. The Roads Needs Study will also include a Pavement Management System, which incorporates life cycle costs into a more systematic approach to minor and major road maintenance and reconstruction projects. The Pavement Management System assist with the needs of the entire network as well as budget projections for consideration before any projects are executed. Pavement Management encompasses the many aspects and tasks needed to maintain a quality pavement inventory, and ensures that the overall condition of the road network can be sustained at desired levels of service. The data will assist Council with decision-making regarding the rural road maintenance and improvement Staff feels it is in the best interest of the municipality to move this project forward a year given that the Township is required to have completed by July 1. 2021 an approved asset management plan for core assets (roads, bridges and culverts, water, wastewater and stormwater) that discusses current levels of service and the cost of maintaining those services. This requirement is in compliance with Ontario Regulation 588/2017 which mandates the completion of comprehensive asset management plans by municipalities.

CAPITAL NAME Sixteen Road Rehabilitation

CAPITAL TYPE Surface Treatment

DESCRIPTION

Sixteen Road (from Rosedene Rd to Hodgkins Rd) and (from Port Davidson Rd to Minor Rd) is in poor condition. This road has been patched several times. The road stone base is failing in some areas. This section of road was identified the 2014 Road Needs Study as requiring rehabilitation within 1 to 5 years. The road has since decayed further requiring rehabilitation now. The road has loss of platform, rutting, and shows signs of base damage, with a PCI rating ranging from 55.8 to 64 in 2014. Road rehabilitation will include pulverizing and restoring the stone base and then application of double surface treatment.

CAPITAL NAME Replacement of Bridge 34

CAPITAL TYPE Deck Replacement

DESCRIPTION

Based on the bienial bridge inspections and condition of Bridge 34, the structure has been load rated multiple times since 2013. A monthly monitoring program was undertaken due to the severe deterioration and condition of the bridge superstructure (concrete griders and deck), which ultimately resulted in the closure of the bridge structure in November 2018. The replacement of Bridge 34 is identified in the Township's 10 Year Capital Forecast in 2023/2024 in the amount of \$865,000. As a result of the closure various replacement options where reviewed and presented to Township Council for consideration. Staff undertook a comprehensive review and recommended that the existing bridge deck be replaced with a "Reinforced Concrete Slab on Streel Girders", as presented and approved in Report RFD PW-07-2019.

SERVICE AREA 6130 Bridges Culverts

CAPITAL NAME Bridge 16

CAPITAL TYPE Deck Betterment - Construction

DESCRIPTION

Bridge 16 is on Patterson Rd just south of Regional Rd 20. In 2013 a Detailed Bridge Survey was completed with recommendations to complete deck, abutment, and soffit repairs due to deterioration. An additional detailed inspection was carried out on July 10, 2018 to confirm any changes in the bridges condition. No major changes have been observed. Also a new TL-4 barrier walls will be installed along the curb of the bridge to meet pedestrian and crash test requirements of the bridge code.

SERVICE AREA __06140_Traffic_Ops_Roadside_Services

CAPITAL NAME Colver St. New Sidewalk

CAPITAL TYPE Sidewalk New

DESCRIPTION

There is currently no sidewalk on Colver St on the North side from Wade Rd to the school on the corner of Colver St. and Canborough St. As part of their site plan, the District School Board of Niagara will be building a new sidewalk on the North side of Colver from Canborough Street to Barbara Street. Staff is proposing to construct a new sidewalk on the North side of Colver from Barbara St. to Wade Rd. This will provide a safe walking space for the public and children that attend the school.

CAPITAL NAME South Grimsby Road 6 Sidewalk - Gateway to Hwy 20

CAPITAL TYPE Sidewalk New

DESCRIPTION

The new school was built on Streamside Dr and HYW 20, the plan was to provide sidewalk around the school property. The Region is offering significant cost savings to move this sidewalk plans to the year 2019 in correlation with the current HWY 20 project. This work is to be done within the Region Rd construction project. There will be design cost savings as well as significant quantity savings The estimated cost is \$85 000.

CAPITAL NAME Industrial Park Rd. New Sidewalk

CAPITAL TYPE Sidewalk New

DESCRIPTION

There is currently sidewalk at the N/W corner of HWY 20 and Industrial Park Rd. There is no sidewalk going down Industrial Park Rd. The region has offered to put in 50M of sidewalk as part of the HWY 20 Project. This sidewalk will connect to the existing sidewalk at the corner and connect to the existing driveway of the Plaza. This will provide a safe walking space for the public and will tie in to future plans of urbanizing this area. There will be significant cost savings doing the sidewalk at this time with the HWY 20 Project. The estimated cost is \$15 000.

CAPITAL NAME Streetscape Improvements

CAPITAL TYPE Streetscape

DESCRIPTION

Implementation of the Economic Development Strategy and the Urban Design Guidelines, along with Regional EA for Regional Road 20, will require public funds to be invested in specific projects to encourage investments by the private sector. Regional Road 20 is scheduled for an upgrade in 2019/2020. In conjunction with the Region's work, Township staff propose that streetscape work be undertaken in conjunction with the improvements to the travelled road. The plan will be to make improvements to such things as boulevards, street lights, electricity (power lines), sidewalks, trees, etc.

CAPITAL NAME Water Meter Replacement Program

CAPITAL TYPE Water Meters

DESCRIPTION

This is an on-going project as part of the results from the 2015 Non-Revenue Water Loss Study, which includes recommendations for the replacement of outdated water meters. Works are proposed for the replacement of existing water meters and will continue for subsequent years to capture any revenue losses through older and uncalibrated meters. In addition, in 2019 staff is proposing replacing all pulser meters which have an average age of 25 years. An outside firm will be contracted to conduct the changeover of over 100 of these meters. These meters slow down with age and measure lower consumption, which leads to decreased water revenue.

CAPITAL NAME West Street Watermain Upsize

CAPITAL TYPE Main - Upsize and Replace - Construction

DESCRIPTION

Part of the approved boundary adjustment, the existing watermain on West Street has been identified as requiring upsizing on West Street between Wade Rd and South Grimsby Rd 5 to service the future development area. The proposed work was also identified in the 2017 Development Charges Study. The proposed 2019 work is for the necessary design works to upsize the existing watermain from 150mm diameter to 300mm diameter to service the future development lands to the north-west. The design works are necessary to prepare for watermain construction during the proposed road reconstruction of West Street in 2019 by Niagara Region. The works are a continuation of preparatory works which commenced in 2017.

CAPITAL NAME Wellandport Driveway Posts

CAPITAL TYPE Land Improvements

DESCRIPTION

Driveway posts are required to stop vehicles from entering onto the grass portion of the park. We have spent several thousand dollars over the last 3 or so years repairing extensive damage to these areas. It takes weeks to repair and grow new grass which makes the park unsightly and unusable during that time. Wooden posts are the most cost effective way to prevent this damage from continuing.

CAPITAL NAME Smithville Square Parkette

CAPITAL TYPE Land Improvements

DESCRIPTION

This project to transform a downtown parking lot into the Smithville Square Parkette is part of the Building a Vibrant Tomorrow Plan, and was based on the urban design manual, and streetscape master plan that identified the need for a shared public space. The project was originally estimated at \$250,000 and in 2018 staff secured funding with a \$100,000 contribution received from the Niagara Region through the PRIP program; \$48,000 received through Provincial Grants; and the Township contributed the remaining \$102,000 (\$77,000 from the Capital Reserve and \$25,000 through development charges). The design phase of the project is nearing completion, initial cost estimates for the project indicate an increase in budget is required in the amount of \$45,000. This increase can be funded entirely from development charges, staff requests this be included in the 2019 budget. The overall project totalling \$295,000 will have revised funding as follows: Niagara Region Grant \$100,000; Development Charges \$71,600; Main Street Revitalization Provincial Funding \$50,400; Capital Reserve \$73,000

CAPITAL NAME Wellandport Roof

CAPITAL TYPE Facilities

DESCRIPTION

The roof rehabilitation on the Wellandport Hall was included in the 2018 capital budget. With the library addition staff felt it would be better to match the steel roof installed there. Because of the cost of the materials used on that roof and the increase in steel prices, the cost rose on this project. Staff would like to carry over the \$17,000 from the 2018 and add \$33,000 to complete this project in 2019. This roof will last a lifetime and increase the insulation properties to the building as well as look aesthetically pleasing while matching the now existing library roof.

SERVICE AREA 18100_Planning_Development

CAPITAL NAME Wellandport Community Improvement Plan (CIP)

CAPITAL TYPE Operating-Study

DESCRIPTION

Region of Niagara will be upgrading Regional Road 63 (Canborough Rd) through Wellandport in 2021. In order to coordinate improvements to the sidewalk and streetscape appearance, a Streetscape Master Plan and a Wellandport Community Improvement Plan (CIP) should both be completed. The Streetscape Master Plan RFP will soon be released for bids and will ultimately result in a consulting firm designing a Master Plan for Wellandport and its Main Street. This is based on the fact that in 2018 Council approved a \$10,000 allocation towards this project which the Region is matching. In addition, in order to further enhance Main Street, a commercial facade program is proposed, which can only occur through a Community Improvement Program (CIP). A CIP is a recommended plan in order to secure the appropriate funding for Streetscape and Facade Improvements with assistance from the Regional funding program. This capital sheet plus the 2018 Master Streetscape Plan Sheet then provide a full program of improvement opportunities for Wellandport in partnership with the Region.

CAPITAL NAME Mandatory Parks Study

CAPITAL TYPE

DESCRIPTION

Under the Planning Act, municipalities are required to have a "Parks Plan" that documents the need for parkland and related standards to justify the use of the alternate calculation rate of 1 hectare per 300 units or cash in lieu at a value of 1 hectare of parkland per 50 units. The alternate parkland calculation only yields a 5% rate when developments exceed 15 units per hectare. As Smithville intensifies and intensification and multi-residential built form takes up a greater share of the mix, an understanding of parkland needs is appropriate so as to enable the alternate.

Wellandport Streetscape Master Plan

CAPITAL TYPE

Operating-Study

DESCRIPTION

Township Council had approved \$10,000 in 2018 for the Wellandport Master Plan which has now been matched with funding of \$10,000 from the Region through the Region's SNIP program. The Streetscape Master Plan will be released for bidding in conjunction with the Wellandport Community Improvement Plan in 2019 and will ultimately result in a consulting firm preparing a CIP and designs for behind the curb for Wellandport. Discussions with the Region of Niagara have indicated that a full Streetscape Master Plan will be required in order to secure the appropriate funding.

SERVICE AREA

16100_Parks

SERVICE CHANGE

Addition of one Full-Time Arena/Parks Operator

JUSTIFICATION

The amount of green space for which the Recreation Division is responsible for has been increasing steadily for the last few years. In order to maintain the current level of service with care and maintenance, additional staffing is needed. The addition of one FTE will increase the capacity of the Recreation Division overall. Staff recommend that the new position will assist with urban care and maintenance, facility operation and general maintenance duties. The addition of one FTE will also assist in the additional staffing requirements of the new community centre.

The West Lincoln Community Centre requires additional staff in order to annually operate the new facilities that are now open to the public. The new spaces will house fitness programs, new gym programs, new older adult programs and will be available for rentals if the addition of this FTE is approved. Staff recognize the importance of having a fully trained and competent staff member in control of the facility when it is open. Staff also recognize that there is an increase in the amount of cleaning required in the operation of the new facilities. This position will increase staffing capacity to accomodate for the higher maintenance demands.

Staff recommend that the additional FTE will allow for consistent evening programming and rentals in the West Lincoln Community Centre. Without this increase to the level of staffing, the new facility will not be available for Township programs or public use. With the opening of the new facility, there is public expectation of the availability of these services.

BUDGET IMPACT

ANNUAL COST FOR FULL TIME POSITION WITH BENEFITS IS \$78,000. THE IMPACT TO THE 2019 BUDGET WILL BE \$52,000

SERVICE AREA

_16200_Recreation_Programs

SERVICE CHANGE

Customer Service and Administration Clerk

JUSTIFICATION

This service level change is to hire a Customer Service and Administration Clerk to work in the Recreation and Facilities Service Areas. This position will be located at the new recreation facility front desk area. The reception desk in the new recreation facility is located at the main doors and will be the first and main point of contact for visitors to the facility. The new position will provide information, will accept payments, will receive and administer facility booking requests (ice, rooms, gymnasium, parks).

This position will increase efficiencies with program registration processes and facility booking requests and administration for current and future programming and rentals. The position will provide front counter customer service in the new recreation facility and will be an administrative resource for Recreation and Facilities staff members. This position will provide administrative support in the service areas of programming, facilities, events, maintenance and cemeteries. Cemeteries is currently lacking in administrative support and this position will create consistencies and improved customer service.

This position will also improve business continuity for vacation and absense coverages. It will create regularity in service hours in the new facility and allow features like the walking track to have consistenct access throughout the year. The position will also assist in providing increased levels of facility monitoring of patron usage for safety. This will create a centralized point of contact to improve ongoing communication between patrons and staff.

It is anticipated that the new position will be a union position and an hourly wage has been proposed in the budget based on the current CUPE contract.

BUDGET IMPACT

ANNUAL COST WITH BENEFITS IS \$58,000. COST FOR 8 MONTHS IS ESTIMATED AT \$38,700

Hiring of IT Help Desk Position

JUSTIFICATION

With the increase of size, scope and personnel in West Lincoln just in the last two years, IT service requests have increased substantially both in complexity and volume, and we have recognized the Township is at a technical crossroads. In terms of industry best practice, the IT support staff ratio to end user staff, in an environment with many platforms comparable to the Township, would be 1:45. This puts us at risk in terms of systems being properly maintained and monitored given there isn't sufficient ratio to support all staff and systems. There have been several large projects completed recently including bringing on-line systems in-house, which in itself creates an increase in support and maintenance requests. Additionally within the next fiscal year there are several large scope projects to be implemented including Microsoft Exchange Email, a new Corporate phone system as well as a complete Website redesign. With the opening of newer facilities such as the Wellandport Library and the new Community Centre, again resources are stretched given at present there is 1 IT position supporting all technology and sites in the Township. The physical span of buildings across the Township alone, with 3 libraries, the Public Works building, Fire Stations #1 & #2 and the Community Centre/Library require travel, time and varying degrees of technical support. To address service, training, support and maintenance issues, the addition of a help desk position will alleviate the bottleneck of support tickets, while allowing the IT Administrator to properly manage projects and oversight of the network. It should also be noted that the Building Department has implemented a paperless processing system, putting greater demand on the the Township's IT infrastructure. It is also apparent the degree of technical level is becoming more complex requiring corresponding depth of support. Currently there is an additional risk with no vacation/sick/training coverage to address issues and has in the past created incidents including virus proliferation because staff were not available to monitor and assist. If we look at other municipalities as comparators, the Town of Pelham has two IT Staff, the Town of Lincoln has 3 IT staff and the Town of Grimsby has 5 IT Staff. Based on our growth and current best practices in other municipalities we believe the addition of an IT position is warranted.

BUDGET IMPACT

Full-time position estimated at 60,000 annually, plus benefits for a total of \$78,000. We are asking for a part-time position to introduce the position and access needs. 42 hours a pay period, .6 FTE. Annual cost reduced to \$46,800. Based on pro-rating 6 out of 12 months is \$23,400

SERVICE CHANGE

Increase Recreation and Wellness Programmer to Full Time Hours

JUSTIFICATION

This service level change is to increase hours to full time for the Recreation and Wellness Programmer position. This will increase the number of programs offered through Recreation Services. With the new facility opening there will be more opportnities to provide programming for the community. There will be new spaces and facilities available and the increase in hours for this position will allow Recreation Services to make appropriate use of these new spaces. New programming will be across all demographics however a focus on children and older adults will be considered.

BUDGET IMPACT

ANNUAL BUDGET IMPACT IS ESTIMATED TO BE \$12,400

SERVICE CHANGE Gypsy Moth Spray

JUSTIFICATION

Township Staff have been informed that gypsy moth is back and is infesting our oak trees. A budget authorization is proposed so that we can work with Trees Unlimited and local land owners to coordinate a spray program to attempt to control the gypsy moth infestation. Trees Unlimited is planning a spray program in 2019 across Niagara-on-the-Lake, Pelham, Fort Erie, and West Lincoln. Pockets of deforestation in the southern and southcentral areas of West Lincoln were found in 2018. This budget request is to provide funds to cover the costs of spraying trees on Township road allowances as well as costs to administer this program.

BUDGET IMPACT

\$6,000.00

SERVICE AREA

SERVICE CHANGE

Staffing

JUSTIFICATION

Request: 37 staff hours per week (at Page level, minimum wage). This cost of this change will be mitigated by the fact that we have a Manager retiring as of April 15, 2019, whose position will not be replaced.

For the following reasons we are requesting an additional 37 staff hours per week for Library Page positions:

Since opening at the new location, the Smithville Branch of West Lincoln Public Library has been extremely busy. Library staffing is stretched thin due to the volume of customer requests, lineups at the circulation desk and increased programming. Supervisors spend a great deal of their time at the customer service desk which takes them away from their day to day responsibilities. During peak periods, wait times have increased at the customer service desk as well.

Having a Page working at peak times such as Monday and Friday evenings would help to alleviate customer wait times and would also allow a staff member to focus on the program in progress. Having a Page working on Wednesday and Thursdays would allow Supervisors to have time for their day to day responsibilities and again would help to alleviate wait times for customers and ensure there is a staff person to focus on the program being run. The addition of a Student Page to shelve books would also help to ensure Managers can focus on customer service.

The change involves hiring 4 more adult Pages with an average of 7-8 hours each per week. It would also involve hiring 1 student Page for 6 hours per week.

BUDGET IMPACT

ANNUAL COST OF ADDITIONAL STUDENT PAGE IS \$4,600. ANNUAL COST OF ADDITIONAL ADULT PAGES IS \$26,000. TOTAL ADDITIONAL COST IS \$30,600. ANNUAL SAVINGS FROM NON-REPLACEMENT OF MANAGER IS \$20,400. **NET ANNUAL IMPACT TO OPERATING BUDGET IS \$10,200 INCREASE.**

SERVICE AREA

_16402_Library_Smithville

SERVICE CHANGE

Sunday Staffing

JUSTIFICATION

Request: Library open each Sunday from 1pm-5pm during hockey/skating season (Sept-April). This would involve 4 hours per Sunday for two staff people. We would implement this starting September 2019. The Library has received a number of requests from those using the arena for hockey or public skating to be open and accessible on Sundays. The Library Board believes that having Sunday open hours when the arena is also open will allow us to better meet the community's needs.

BUDGET IMPACT

Annual cost for 7 months of Sunday openings, is \$3,500. Annualized for 2019 is \$2,100.

West Lincoln Community Centre 2019 Budget Impacts

Financing Plan included in the 2019 Budget:

| Tax Increase (raised over 3 years) | \$ | 888,500 |
|--|----|-----------|
| Development Charges- collected in 2019 | \$ | 115,500 |
| User Fees | \$ | 11,000 |
| Wind Turbine Community Fund | \$ | 420,000 |
| | \$ | 1,435,000 |
| | | |
| Debt Repayment | \$ | 1,315,900 |
| | | |
| Available for Operating Costs | \$ | 119,100 |

Operating Costs included in the 2019 Budget:

| | New F | Recreation Centre |
|---|--------|-------------------|
| | Impact | on 2019 Operating |
| | | |
| To provide previous level of service: | | |
| Library-Cleaning | \$ | 11,700.00 |
| Facilities & Parks-part-time staffing increase | \$ | 15,000.00 |
| R&M Accounts | \$ | 11,700.00 |
| Hydro | \$ | 10,000.00 |
| Natural Gas | \$ | 18,400.00 |
| Water | \$ | 12,700.00 |
| Internet/Fibre | \$ | 2,100.00 |
| Insurance | \$ | 5,800.00 |
| | \$ | 87,400.00 |
| To provide enhanced levels of service: | | |
| Service Level Change Requests(net of mitigating factors) | | |
| Additional Arena/Parks Operator | \$ | 52,000.00 |
| Recreation- Receptionist Position | \$ | 38,700.00 |
| Recreation- part-time programmer to full-time | \$ | 8,300.00 |
| Library-increase in part-time hours and Sunday openings | \$ | 7,700.00 |
| | \$ | 106,700.00 |
| Total | \$ | 194,100.00 |

The above indicates that the 2019 Financing Plan for the Community Centre provides adequate funding for the operating costs related to services previously provided by the Township (\$87,400). The amount of \$106,700 is related to providing new/enhanced services to the residents of West Lincoln. Without these additional positions enhanced services would not be available. Schedule H to this report provides a proposed operating schedule.
