**PUBLIC INFORMATION CENTRE # 2**  
**SMITHVILLE MASTER COMMUNITY PLAN – TOWNSHIP OF WEST LINCOLN**

### **The Study**

The Township of West Lincoln (or the Township) is currently in the process of completing a Master Community Plan Study to plan for future growth in the Community of Smithville (see figure for study area), including the identification of the preferred area(s) for urban boundary expansion. A Subwatershed Study is also being undertaken to address environmental and stormwater considerations associated with the Twenty Mile Creek watershed and support the Master Community Plan Study. To date, two Public Information Centres (PICs) have been held for this study, PIC #0 on January 30, 2020 and PIC #1 on February 11, 2021.

### **Planning Framework**

The Master Community Plan is being developed under the Planning Act and is integrated with the infrastructure planning in accordance with the requirements of the Municipal Engineers Association's Municipal Class Environmental Assessment (EA) for Water, Wastewater and Roads (as amended in 2015) Master Plan Approach #4. This approach is desirable for long term planning where interdependent decisions which impact servicing and land use are being made and the range of servicing alternatives needs to be addressed in an integrated fashion, so as to recommend the best overall solution for the community.

Together with the Environmental Assessment Act, the Master Community Plan will include the location of arterial and collector roads, distribution and density of land uses, water and wastewater (including stormwater) servicing, environmental protection and sustainable design policies. The Plan will identify the preferred approach to phasing that will guide future development and address all infrastructure requirements for the selected urban expansion area(s). The Plan will also support amendments to the Regional Municipality of Niagara and Township of West Lincoln Official Plans.

### **How to Participate in Public Information Centre (PIC) #2**

The Township invites anyone with an interest in the Study to provide input and help inform the decision-making process. All consultations are being held virtually to protect the health and safety of participants and the project team due to the COVID-19 pandemic. There are two ways to participate in PIC #2:

#### **1. Join the PIC #2 virtual information meeting (note: registration is required)**

There will be a **Virtual Information Meeting** held on October 6, 2021 from 6:30 pm to 8:30 pm. The study team will provide an overview presentation of the project and will answer your questions live. Individuals can participate online or by phone. PIC #2 will present the Preliminary Preferred Concept Plan, in addition to other study component preliminary findings.

**Register for the Meeting** by contacting:

Ryan Lavender  
Communication and Community Engagement Specialist  
AECOM Canada Ltd.  
T. 647.394.5055  
[ryan.lavender@aecom.com](mailto:ryan.lavender@aecom.com)

#### **2. Join the online virtual engagement platform**

Join the online virtual engagement platform: [Plansmithville.ca](https://Plansmithville.ca). The Preliminary Preferred Concept Plan will be available starting October 1, 2021. The online platform summarizes study area conditions and the preliminary land use concept options, including the Preliminary Preferred Concept Plan. A summary of preliminary impact assessment findings will also be included. The online platform includes an opportunity to provide feedback on the Plan.

If you require alternative formats, have comments, require further information or would like to be added to the Study's mailing list to receive future notifications, please contact:
